

VIEWPOINT

VINYL REPLACEMENT WINDOWS
SERIES 1000

ENERGY-EFFICIENT • LOW-MAINTENANCE • BEAUTIFUL • ENVIRONMENTALLY FRIENDLY

THE VIEW YOU'VE BEEN MISSING

At ViewPoint Windows & Doors, we make beautiful, high-performance, eco-friendly windows and doors that you can be proud to make a part of your home. Low-E glass and our Warm-Edge Insulated Glass Sealant System are used in every product, enabling us to meet or exceed the highest energy standards—and ensuring a more comfortable, consistent temperature in your home and more cost-savings in your wallet. We compound and extrude our own vinyl to maintain the highest quality and to reduce waste, and we recycle our own vinyl scrap to maximize yield and minimize the impact on local landfills.

Even our glass components are made from up to 28 percent of reclaimed glass. And every product undergoes rigorous quality-control measures to make sure you're getting the highest craftsmanship that will stand the test of time.

When you're looking for the perfect windows or doors for your home, don't miss the view from ViewPoint. All of our products are available exclusively through Norandex, America's trusted building materials distributor for over 50 years.

- All-welded frame and sash corners provide added structural integrity.
- $\frac{3}{4}$ " insulated glass ensures superior thermal efficiency.
- Double sash locks come standard with all windows 27 $\frac{1}{4}$ " or wider.
